Boeing 777 Autothrottle Manual - vrcworks.net

The Boeing 777 is a long-range, wide-body twin-engine airliner built by Boeing Commercial Airplanes. The world's largest twinjet and commonly referred to as the "Triple Seven", it can carry between 283 and 368 passengers in a three-class configuration and has a range from 5,235 to 9,450 nautical miles (9,695 to 17,500 km). Distinguishing features of the 777 include the six wheels on each main ...

Boeing 777 Autothrottle Manual Landing

Boeing 737 Autothrottle System Going through the 'Boeing 737 Operations Manual', I gather that the autothrottle can be used for a manually flown precision or non-precision approach down to landing. Are there any Boeing 737 pilots who use the autothrottle for most manually flown approaches, and if so, is it an approved standard operating ...

Boeing 777 Autothrottle Manual - bitofnews.com

I always thought that it was the reversers that disengaged the A/T if left on during a manual landing, but perhaps the autothrottle behavior on an autoland is different than on a manual landing. It would make sense that the autothrottles would be affected because TOGA is disabled any time you are less than 5' for more than 2 seconds.

The Reliability Trap: The crash of Emirates flight 521 ...

the A/T on the 777 works well manual and in auto.with very quick response. it will retard to idle at touchdown. its protected by min maneuvering speed with some

limitations in flight.

Bing: Boeing 777 Autothrottle Manual Landing

The Standard Operating Procedure (SOP) of most airlines operating the Boeing 777 is to leave the auto throttle on for all landings. However, if the pilot intends to land the plane using manual thrust, he could do so by switching the system off.

Overriding automation - Auto throttles on the Boeing 777

I saw a couple of 777 cockpit videos and I saw that autothrottle (A/T) is widely used during landing and they just turning the autothrottle knob left or right to set the speed.

Boeing 777 Autothrottle Manual Landing - vrcworks.net

The flight operations manual, which all pilots are required to read, did mention that the TOGA switches were inhibited once the landing gear touched the runway. However, no information about this...
