### **European Integration, Nationalism and European Identity**

Abstract Early theorists of European integration speculated that economic integration would lead to political integration and a European identity. A European identity has not displaced national identities in the EU, but, for a significant share of EU citizens, a European identity exists alongside a national identity.

Pan-European identity is the sense of personal identification with Europe, in a cultural or political sense. The concept is discussed in the context of European integration, historically in connection with hypothetical proposals, but since the formation of the European Union in the 1990s increasingly with regards to the project of ever-increasing federalisation of the EU. The model of a "pan-European" union is the Carolingian Empire, which united "Europe" in the sense of Latin Christendom. The o

The accelerated pace of European integration since the early 1990s has been accompanied by the emergence of increasingly prominent and multiform oppositions to the process. The term Euroscepticism has appeared with growing frequency in a range of political, media, and academic discourses. Yet, the label is applied to a wide range of different, and occasionally contradictory, phenomena.

Abstract. Opposition to the European integration project can stem from many different sources, but one that appears to be fairly fundamental is the threat that the European Union (EU) poses to long-established national identities. This contention may in fact appear to be so trivial as to make it uninteresting to the social science community.
